

Assignment -1
Python Programming

Assignment Date	25 September 2022
Student Name	V.Akash
Student Roll Number	821919104002
Maximum Marks	2 Marks

Question-1:

- 1 . Create User table with user with email , Username , roll number , password.
- 2 . Perform UPDATE , DELETE Queries with user table.
- 3 . Connect python code to db2
- 4 . Create a flask app with registration page. login page and welcome page. By default load the registration page once the user enters all the fields store the data in database and navigate to login page authenticate user username and password . If the user is valid show the welcome page.

The screenshot shows a web browser window with a single tab titled 'Signup'. The address bar displays '127.0.0.1:5000'. The main content area features a light gray background with a white rounded rectangle in the center. Inside this rectangle, the word 'SignUp' is written in a large, bold, orange font. Below it, there are four input fields, each preceded by a label: 'Username :', 'Roll Number :', 'Email :', and 'Password :'. Each label is in a small, gray font. The input fields are white with a light gray border. Below the input fields is an orange button with the text 'SignIn' in white. At the bottom of the white rectangle, there is a link that says 'Already have an Account ? Signin', where 'Signin' is in orange and underlined.
